# FLEXI-N TANK TELEMETRY

- Monitor Flexi-N tank levels to make informed management decisions
- Easily accessible, constant data recording through myCSBP
- Time savings in travelling to check tanks
- Enables theft or leakage of Flexi-N to be identified quickly

### Product comparison – FarmBot + GoannaAg

We have partnered with two leaders in the tank telemetry industry, FarmBot and GoannaAg. These suppliers were chosen for their capacity to handle demand, provide customer service, device functionality and competitive pricing.

We have established API's with FarmBot and GoannaAg so your Flexi-N tank data can be viewed in your **myCSBP** account. Data is updated twice a day by satellite.

|   | FarmBot Flexi-N Tank Telemetry    | GoannaAg Flexi-N Tank Telemetry           |
|---|--|--|
| <b>Product offering</b>   | Provides a single telemetry device option that monitors one tank only and the option of a hub monitor that can connect multiple solo monitors.   | Provides one telemetry device option - a single telemetry device that monitors one tank only.                                |
